Multiple Theater Sizes for Every Space!

In our pursuit of making Megaverse® more accessible and flexible for all family entertainment centers, we are proud to announce that Megaverse® now comes in three distinct sizes:

Small - 12' x 18': Perfect for intimate spaces, our small room accommodates 6 VR headsets, making it an ideal choice for gatherings and smaller facilities.

Medium - 18' x 24': Strike the perfect balance with our medium-sized room, capable of hosting 8 VR headsets. This size is versatile, fitting perfectly into various spaces while maximizing entertainment potential.

Large - 20' x 30': If you have ample space and are looking for a substantial return on investment, our large room provides an immersive experience for up to 12 VR headsets, ensuring that everyone gets in on the action.

We understand that every location is unique, and space can be a valuable resource. That's why we've designed these multiple sizes, so you can choose the one that best fits your facility's layout and your customers' desires. Whether you're working with a
